Ipad air 2020 vs samsung tab s6 lite. Apple ipad air 2020 vs samsung galaxy tab s6. Galaxy tab s6 vs ipad air 2020. Tab s6 lite vs ipad air 2020.

Apresentado no Brasil em abril de 2019 pelo preço sugerido de R\$ 4.499, o iPad Air não teve redução de preço e ainda é encontrado pelo mesmo valor no varejo online. A situação também se repete com o concorrente Galaxy Tab S6 Lite que é vendido na cor grafite pelo mesmo preço de lançamento. Confira a seguir as diferenças entre os tablets. 1 de 5 Galaxy Tab S6 Lite chegou para competir com o iPad Air 2019 — Foto: Divulgação/Samsung Galaxy Tab S6 Lite chegou para competir com o iPad Air 2019 — Foto: Divulgação/Samsung Sucessor do Galaxy Tab S5E, o novo modelo da Samsung apresenta tela TFT LCD de 10,4 polegadas com resolução de 2000 x 1200 pixels e densidade de 224 PPI. Já o iPad Air conta com painel LCD de 10,5 polegadas, resolução Retina de 2224 x 1668 pixels e 265 PPI de densidade. O aparelho ainda conta com a tecnologia True Tone e proteção contra quedas e arranhões. Em relação ao design, o modelo da Apple é mais fino, com 6,1 mm contra 7 mm do Galaxy Tab S6 Lite. Ambos apresentam a câmera frontal centralizada. O iPad Air ainda vem com um botão de Touch ID para desbloqueio por impressão digital, enquanto seu concorrente conta com reconhecimento facial. Em relação à telefonia, ambos têm entrada para nano SIM. A Samsung promete sincronização com celulares Galaxy para que os usuários possam atender ligações diretamente do tablet. Para quem está acostumado com a qualidade das fotos tiradas no iPhone ou nos celulares Galaxy, as câmeras dos tablets podem decepcionar. O Galaxy Tab S6 Lite conta com câmera traseira de 8 MP, abertura f/1.4 e câmera frontal de 5 MP. O sensor principal do iPad Air também é de 8 MP, com abertura f/2.4 e o sensor de selfies registra fotos de até 7 MP. Já em relação ao vídeo, ambos podem gravar em Full HD a uma velocidade de 30 quadros por segundo, mas só o aparelho da Apple conta com Slow Motion de 240 quadros por segundo e modo panorâmico. Os dois tablets têm estabilização digital, detecção facial e sistema HDR, que auxilia nos registros com contraste mais evidente. 2 de 5 Galaxy Tab S6 Lite tem câmera traseira de 8 MP e grava em Full HD — Foto: Reprodução/GSM Arena Galaxy Tab S6 Lite tem câmera traseira de 8 MP e grava em Full HD — Foto: Reprodução/GSM Arena Desempenho e armazenamento Em relação ao desempenho, o Galaxy Tab S6 Lite conta com processador Exynos 9611 (octa-core de até 2,3 GHz) e memória RAM de 4 GB. Já o iPad Air apresenta chip A12 Bionic com arquitetura de 64 bits Neural Engine, coprocessador M12 integrado e 3 GB de RAM. O modelo da Apple pode ser encontrado nas versões 64 ou 256 GB de armazenamento interno, enquanto o da Samsung só está disponível na versão de 64 GB de espaço para dados. Como de praxe, o iPad Air não vem com entrada para cartão de memória, mas o Galaxy Tab S6 Lite pode ser expandido em até 1 TB por meio de cartões microSD. 3 de 5 iPad Air conta com chip A12 Bionic e coprocessador M12 integrado — Foto: Divulgação/Apple iPad Air conta com chip A12 Bionic e coprocessador M12 integrado — Foto: Divulgação/Apple A bateria do Galaxy Tab S6 Lite é de 7.040 mAh, com promessa de até 13 horas de uso com reprodução de vídeos. Já a Apple garante que a bateria de 8.134 mAh do iPad Air pode deixar o aparelho longe das tomadas por até 10 horas de uso para navegar na internet, assistir a vídeos ou escutar músicas. A recarga do tablet pode ser feita via USB do computador ou carregador. 4 de 5 Bateria do Galaxy Tab S6 Lite promete até 13 horas longe das tomadas — Foto: Divulgação/Samsung Bateria do Galaxy Tab S6 Lite promete até 13 horas longe das tomadas — Foto: Divulgação/Samsung Sistema operacional e recursos adicionais O sistema do Galaxy Tab S6 Lite é o Android 10, do Google, que funciona em conjunto com a interface Samsung One UI 2.0. Já o iPad Air conta com a versão iPadOS, que apresenta recursos e apps próprios para o tablet. O aparelho da Samsung vem acompanhado de uma capa chamada de Book Cover, que conta com um espaço específico para guardar a S Pen, caneta eletrônica que está inclusa na caixa, e oferece três posições de suporte para o tablet. O iPad Air também apresenta compatibilidade com Apple Pencil e Smart Keyboard, mas os dispositivos precisam ser adquiridos separadamente. Ambos contam com Bluetooth 5.0, GPS e Wi-Fi nas faixas 802.11 a/b/g/n/a. O modelo da Samsung ainda traz porta USB-C e porta P2 (3,5 mm) para fones de ouvido, enquanto o iPad Air oferece suporte ao Apple Pay. O tablet sul-coreano não oferece conectividade NFC para pagamentos por aproximação. 5 de 5 Galaxy Tab S6 Lite conta com caneta eletrônica S Pen — Foto: Divulgação/Samsung Galaxy Tab S6 Lite conta com caneta eletrônica S Pen — Foto: Divulgação/Samsung O Galaxy Tab S6 Lite está disponível por R\$2.999. Apesar de ter as versões grafite, rosa e azul no exterior, ele só pode ser encontrado na cor grafite no Brasil. Já o iPad Air foi lançado no início do ano passado por R\$ 4.499 nas cores prata, cinza espacial e dourado. Especificações Galaxy Tab S6 Lite vs iPad Air 2019 Especificações Galaxy Tab S6 Lite iPad Air 2019 Lançamento no Brasil junho de 2020 abril de 2019 Preço de lançamento R\$ 2.999 R\$ 4.499 Preço atual R\$ 2.999 R\$ 4.499 Tela 10,4 polegadas 10,5 polegadas Resolução de tela 2000 x 1200 pixels 2224 x 1668 pixels Painel de tela TFT LCD IPS LCD Processador Exynos 9611 (octa-core de até 2,3 GHz) A12 Bionic Memória RAM 4 GB 3 GB Armazenamento 64 GB 64 GB ou 256 GB Cartão de memória sim, microSD de até 1 TB não Câmera principal 8 MP 8 MP Câmera frontal (selfie) 5 MP 7 MP Sistema operacional Android 10 One UI 2.0 iOS 12 Bateria 7.040 mAh 8.134 mAh Telefonia nano SIM nano SIM Dimensões e peso 244,5 x 154,3 x 7 mm; 467 g 250,6 x 174,1 x 6,1 mm; 464 g Cores cinza, rosa e azul prata, cinza espacial e dourado Com informações da Samsung e Apple Como atualizar o iOS no iPhone e iPad Julian Chokkattu / Digital Trends Samsung has kicked off a season of reveals by unveiling the Samsung Galaxy Tab S6 — an updated and modern Android tablet with a sleek design, a powerful flagship processor, and some great productivity-focused features. But Android hasn't been the go-to for tablets in some time, and Apple's range of iPads are what most people think of when they think of the best tablets. While it's not the most powerful entry in the range, the iPad Air is powerful, sleek, and affordable. A clash between the two is inevitable. So which is the better choice for you? We put the two tablets head-to-head to find out. Specs Samsung Galaxy Tab S6 Apple iPad Air Size 244.5 x 159.5 x 5.7mm (9.62 x 6.28 x 0.22 inches) 248.9 x 172.7 x 6.1mm (9.8 x 6.8 x 0.24 inches) Weight 420 grams (14.8oz) 464 grams (16.37 ounces) Screen size 10.5-inch Super AMOLED 10.5-inch LCD display Screen resolution 2,560 x 1,600 pixels (287 pixels-per-inch) 2,224 x 1,668 pixels (265 pixels-per-inch) Operating system Android 9.0 Pie iOS 12 Storage space 128GB, 256GB 64GB, 256GB MicroSD Card slot Yes, up to 512GB No Tap-to-pay services No No Processor Qualcomm Snapdragon 855 Apple A12 Bionic RAM 6GB, 8GB 4GB, 6GB Camera 13MP and 5MP rear, 8MP front 8MP rear, 7MP front Video 4K at up to 30fps 1,080p at 30fps Bluetooth version Bluetooth 5.0 Bluetooth 5.0 Ports USB-C USB-C Fingerprint sensor Yes, in-display Yes Water resistance No No Battery 7,040mAh 8,134mAh App marketplace Google Play App Store Network support TBA AT&T, Sprint, T-Mobile, Verizon Colors Mountain Gray, Cloud Blue, Rose Blush Silver, Space Gray, Gold Price \$650 \$500 Buy from Samsung Apple Review score Hands-on 4 out of 5 stars Performance, battery life, and charging Julian Chokkattu/Digital Trends One of our longest-running bugbears with Android tablets has been fixed in the Galaxy Tab S6 — it finally comes with a flagship processor. The Snapdragon 855 powers Samsung's new tablet, and it's sure to provide snappy performance. But is it the equal of the iPad Air's A12 Bionic processor? Benchmarks say no, with the A12 Bionic having a slight edge on the Snapdragon 855, but it's certainly close. Well, what about the battery? The iPad has a large advantage over the Tab S6 with a significantly larger capacity, but it's not yet known whether that will translate to a strong overall battery life. Apple claims 10 hours of battery life for the iPad Air, while Samsung says you'll manage an impressive 15 hours on a single charge of the Tab S6. But there's a bigger gulf in charging speed. With a USB-C port, the Tab S6 offers faster charging right out of the gate, while you'll need to buy a fast-charging kit for the iPad Air. While there are indications of superiority on both sides, there's not enough of a gulf for us to call this one yet. Winner: Tie Design and durability While the Tab S6's bezels are undeniably modern — echoing the iPad Pro — the iPad Air is something of a throwback to an older time, with thick bezels and somewhat dull design. It has its benefits, like Touch ID, but overall we prefer the more modern look of the Galaxy Tab S6. Samsung's tablet is also lighter than the Air, and thanks to the reduced bezels, it's smaller too. There's an in-display fingerprint scanner, even if it isn't an ultrasonic scanner like the Galaxy S10. There's even an area to magnetically store your S Pen. There's no water-resistance on either device, so be careful while you're by the pool. But both have metal builds, which should prove quite durable. Opposite Day has apparently come early, as you'll find a headphone jack on the Apple device, but not on the Samsung device. Despite the missing headphone jack, the Samsung tablet is undeniably better looking than the iPad. Winner: Samsung Galaxy Tab S6 Display Julian Chokkattu/Digital Trends Both tablets sport 10.5-inch displays, but the underlying tech is rather different. The iPad Air's LCD runs at 2,224 x 1,668-pixel resolution that translates to 265 pixels-per-inch. It's a good display, and it looks great. But is it as good as the Tab S6's panel? The Tab S6 uses one of Samsung's own Super AMOLED displays, with a 2,560 x 1,600-pixel resolution with a crispness of 287 pixels-per-inch. That's not too far from the iPad Air, but it's Samsung's underlying tech that proves superior. The Super AMOLED display outputs far deeper blacks and stronger colors than most LCDs can manage. The Tab S6 wins out here. Winner: Samsung Galaxy Tab S6 Camera We didn't think most people used the dreaded "tea tray of doom" to take pictures, but apparently, we're wrong. Samsung claims 86% of Tab S4 owners used their tablet's camera daily, which means it's taking the camera a little more seriously. That may be why the Tab S6 has a dual-lens camera suite comprised of a 13-megapixel lens with a 5-megapixel 123-degree wide-angle lens. There's an 8-megapixel selfie lens around the front. The iPad Air only has a single 8-megapixel lens around the back and a 5-megapixel selfie lens. It does well enough, but it's no match for a good camera phone. But does it match the Tab S6's dual-lens setup? We haven't had much time with it yet, so we can't declare either way. Winner: Tie Software and updates Julian Chokkattu/Digital Trends The iPad Air currently runs iOS 12, but it will soon be running Apple's new iPadOS, which boosts the productivity abilities of your iPad significantly, adding better multi-app support, a floating keyboard, and more. The Galaxy Tab S6 runs the latest version of Android 9.0 Pie, with Samsung's One UI interface running over the top. It's not as well built for tablets as iPadOS, but that's more than made up for by the inclusion of several special features — which we'll get into later. The choice between iOS and Android often comes down to personal preference — but it's not a matter of opinion which gets faster updates. The iPad Air will get new iOS releases within days of them being made available, while Samsung often takes upwards of six months to filter a new Android version to its devices. The iPad wins on the strength of Apple's update schedule. Winner: Apple iPad Air Special features Julian Chokkattu / Digital Trends There are plenty of special features to be had here. The iPad Air comes with support for ARKit, Face ID facial recognition, the Apple Pencil, and all the new features granted by iPadOS. But it's the Samsung tablet that wins out, with the Dex desktop mode, an in-display fingerprint scanner, an included S Pen, and a trackpad on its keyboard case. These features really help to make the Tab S6 function more like a laptop, and that's a real winner. Winner: Samsung Galaxy Tab S6 Price The Samsung Galaxy Tab S6 costs \$650 for the base model with the S Pen. If you want the upgraded model, then it'll set you back \$730. An LTE model is expected later in the year. The keyboard cover is not included and costs \$179. The iPad Air has a more reasonable base price of \$500, but you'll need to fork out an additional \$99 for the Apple Pencil, and \$159 for the keyboard — it doesn't support the second-generation Apple Pencil, just the original. There's also an LTE model starting from \$629. Overall winner: Samsung Galaxy Tab S6 The results don't lie — the Samsung Galaxy Tab S6 comes out on top in a majority of categories. It's a powerful and good looking tablet with the right stuff to see it used as a great productivity tool and relaxation aid alike. However, the Tab S6's lead is slim and it could easily be toppled by a number of factors. Don't care about the keyboard with a trackpad or the included stylus? Then save yourself money and grab the Apple iPad Air instead of the basic Galaxy Tab S6. However, if productivity is the game and money is no object, then the Galaxy Tab S6 has the iPad Air beaten. There's still the iPad Pro to consider though, and the Galaxy Tab S6 won't have such an easy time against that. Editors' Recommendations
